Class Mini Description

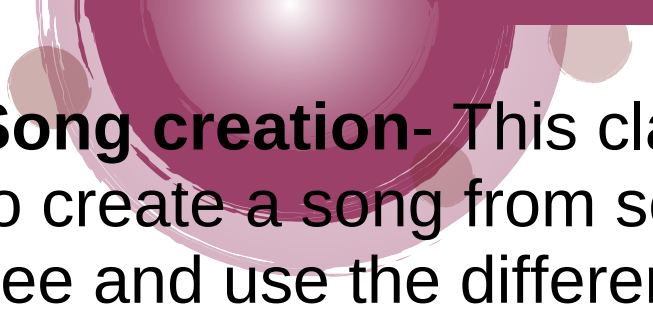

-

Debit/Credit- This class gives information on the difference between debit and credit cards to learners. We will also be creating custom debit/credit cards.

Savings- This class gives information on the benefits of saving and describes different savings plans to learners.

Blooket- This is a fun interactive web game that multiple people can play at once. As the host, I can create topics for the learners to compete with. This will be fun, with social interactions and education simultaneously!

Song creation- This class will teach learners how to create a song from scratch with a beat. We will see and use the different recording tools, and software's to show how this is done. You don't want to miss it. I will upload our finished project to my YouTube channel!

Story Writing: This class will teach learners how to write stories they could have published!

Elephant Toothpaste: This is a science experiment that we will do live. The learners are more than welcome to participate at home and follow along as I show the procedures to do it. We will be using the scientific method to help us with our experiment. When you sign up for the class, the materials that we will need will be sent to you.

Coding- We will be doing coding together from scratch. Learners will have the opportunity to work alongside me or try completely on their own.

Microsoft Office- This is an introduction class to how Microsoft office works and the different tools in Microsoft office.

Cooking- We will be making “No-bake cheesecake” More information (ingredients, materials, etc.) will be provided after signing up.

***Point will be awarded for participation and attendance as well as bringing a friend.

Rissabae Bucks (RBB) Chart

50 RBB	\$5 Gift Card
100 RBB	\$15 Gift Card
200 RBB	\$25 Gift Card
